

Omar Millán Cázares

QA Automation Engineer

Mazatlán, Sinaloa, México | (+52) 669 381 8142 | (+52) 669 217 9643 | contact@gilded.dev
<https://gilded.dev> | LinkedIn: [linkedin.com/in/gilded](https://www.linkedin.com/in/gilded)

PROFILE

QA Automation Engineer with a strong manual QA foundation and growing expertise in Playwright, TypeScript automation, REST/SOAP API testing, and AI-assisted QA workflows. Focused on clear test evidence, defect reporting, regression coverage, and practical improvements that make testing faster and more reliable.

PROFESSIONAL EXPERIENCE

OUTPOSTQA

Mid Manual QA Tester | 2025 - Present

- Execute manual testing across mobile, API, regression, smoke, and functional testing workflows.
- Validate tickets, document defects with clear evidence, and collaborate with the team to improve product quality.
- Support reliable releases through test case execution, bug reporting, Jira tracking, and QA process improvement.

GRUPO STI

QA Automation Engineer | 2024 - September 2025

- Created test cases, documented evidence, and executed manual, automation, API, and stress testing across client projects.
- Used Playwright, JavaScript/TypeScript, Postman, JMeter, OWASP ZAP, Git, SQL, and NoSQL during QA activities.
- Reported defects and provided UX/UI and logic improvement suggestions when issues affected client experience.

ACUICULTEC SA DE CV

QA Tester | 2022 - 2024

- Tested software and hardware products for aquaculture solutions, including web, mobile, and related systems.
- Wrote test cases, documented defects, performed manual and automation testing, and suggested UX/UI improvements.

PROJECTS

HSR Team Builder

Personal Web Project | hsr-team-builder.gilded.dev

- Built a data-driven tool for exploring Honkai: Star Rail team compositions, character data, and light cone references.
- Used as a practical project for frontend development, QA thinking, automation practice, and AI-assisted workflow improvements.

ani-cli-mx

Personal CLI Project | Private

- Customized terminal-based anime search and playback workflows while practicing Bash, Linux tooling, Git, debugging, and iterative testing.

SKILLS

QA: Manual testing, test cases, regression, smoke, functional, defect reporting, Jira, Xray, test evidence.
Automation/API: Playwright, JavaScript/TypeScript, Node.js, Mocha, REST API testing, SOAP API testing, Postman, Yaak.
Security/Performance/Data: JMeter, OWASP ZAP, DAST, SAST concepts, SQL, NoSQL, HeidiSQL, Studio 3T.
AI-assisted QA: Codex, ChatGPT, Claude, OpenCode, AI-assisted testing workflows.

EDUCATION & LEARNING

Bachelor degree in Computer Science | Universidad Autónoma de Sinaloa | 2009 - 2013
ISTQB Foundation Level: In progress | Playwright and TypeScript automation: Independent learning | AI-assisted QA workflows: Independent learning
Languages: Spanish native | English conversational-advanced
